I just called the records center. They just finished copying pdfs to CDs and I should be able to mail them out today to Rick.

Subject: R8 complete data package for Pavillion Phase V

Greg,

Could only leave a message for Mark Burkhardt, but was able to speak with Bill Batchelet on Friday about the complete data package for Pavillion Phase V. We have Phase V data packages from other labs moving through the ADQ process and we also need to get the Region 8 data packages moving (time is running short). Bill said that you were involved in getting the packages processed and might know more on the status of the packages (which should be "almost" ready to send to us). Can you let us know when we should expect them.
